EAD3 apetypes

Convention for values of EAD3 @localtype and @relator in Archives Portal Europe

This is a first draft of the convention for values of the EAD3 attributes @localtype and @relator suggested for the implementation of additional finding aids in EAD3/XML format in Archives Portal Europe, a pilot study produced in the context of a cooperation between the Archives Portal Europe Foundation (APEF) and the Dutch project Digitale Taken Rijk (DTR).

The XML version of the @localtype information of this page is available over here: https://www.archivesportaleurope.net/uploads/generated_pdfs/ead3_apetypes.xml

@localtype path	@localtype value	language	possible content the @localtype value suggests in the indicated language
