

APE CREATIVE GRANT

Archives Portal Europe supports archival research for the purpose of creative projects with grants up to 2000 EUR to assist artists operating in any field (including writing, visual arts, performative arts, photography, filmmaking, long-form journalism projects or documentaries, etc).

Furthermore, the awardees will have in-kind support in research (up to 20 hours in total during the solar year of the grant) by APE and its network to help in the archival research.

The grant will assist in any aspect of the creative process related to the usage of archival material, such as:

- Person-hours of work dedicated to archival research
- Travels and accommodation expenses for archival trips
- Printing or obtaining the right of usage of the archival documents / historical material
- Other costs related to the creation of the creative project / art work related to archives

The grant is intended to pay for archival research and archival re-usage in the context of creating a piece of art. It CANNOT be used for:

- Expenses related to the staging of the work (e.g. pay actors, rent an exhibition space, etc)
- Expenses related to the distribution or marketing of the work
- Anything that is not connected to the usage of archival material and archival research

Artists can submit projects in any field and scope, as long as the projects will be based on and/or feature archival material. Examples of the works we are seeking to support are:

- Historical novels or period theatre/film scripts
- History-based documentaries
- Visual arts projects based on the re-elaboration of archival collections (such as memes, GIFs, collages, photography exhibitions, photographic re-creation, etc)
- Audiovisual projects using archival material
- Any other work of art in which archival research and the usage of archival heritage is essential
